& WILD LIFE RESERVE LTD

**Carbon Offset Projects on Private Forests**  
**How It Works & Status Report**

09 December 2020 – EOMF/CIF Seminar

Malcolm Cockwell RPF, Managing Director

**Sustainable**

**Multi-Use**

**Private Land**

**Stewardship**

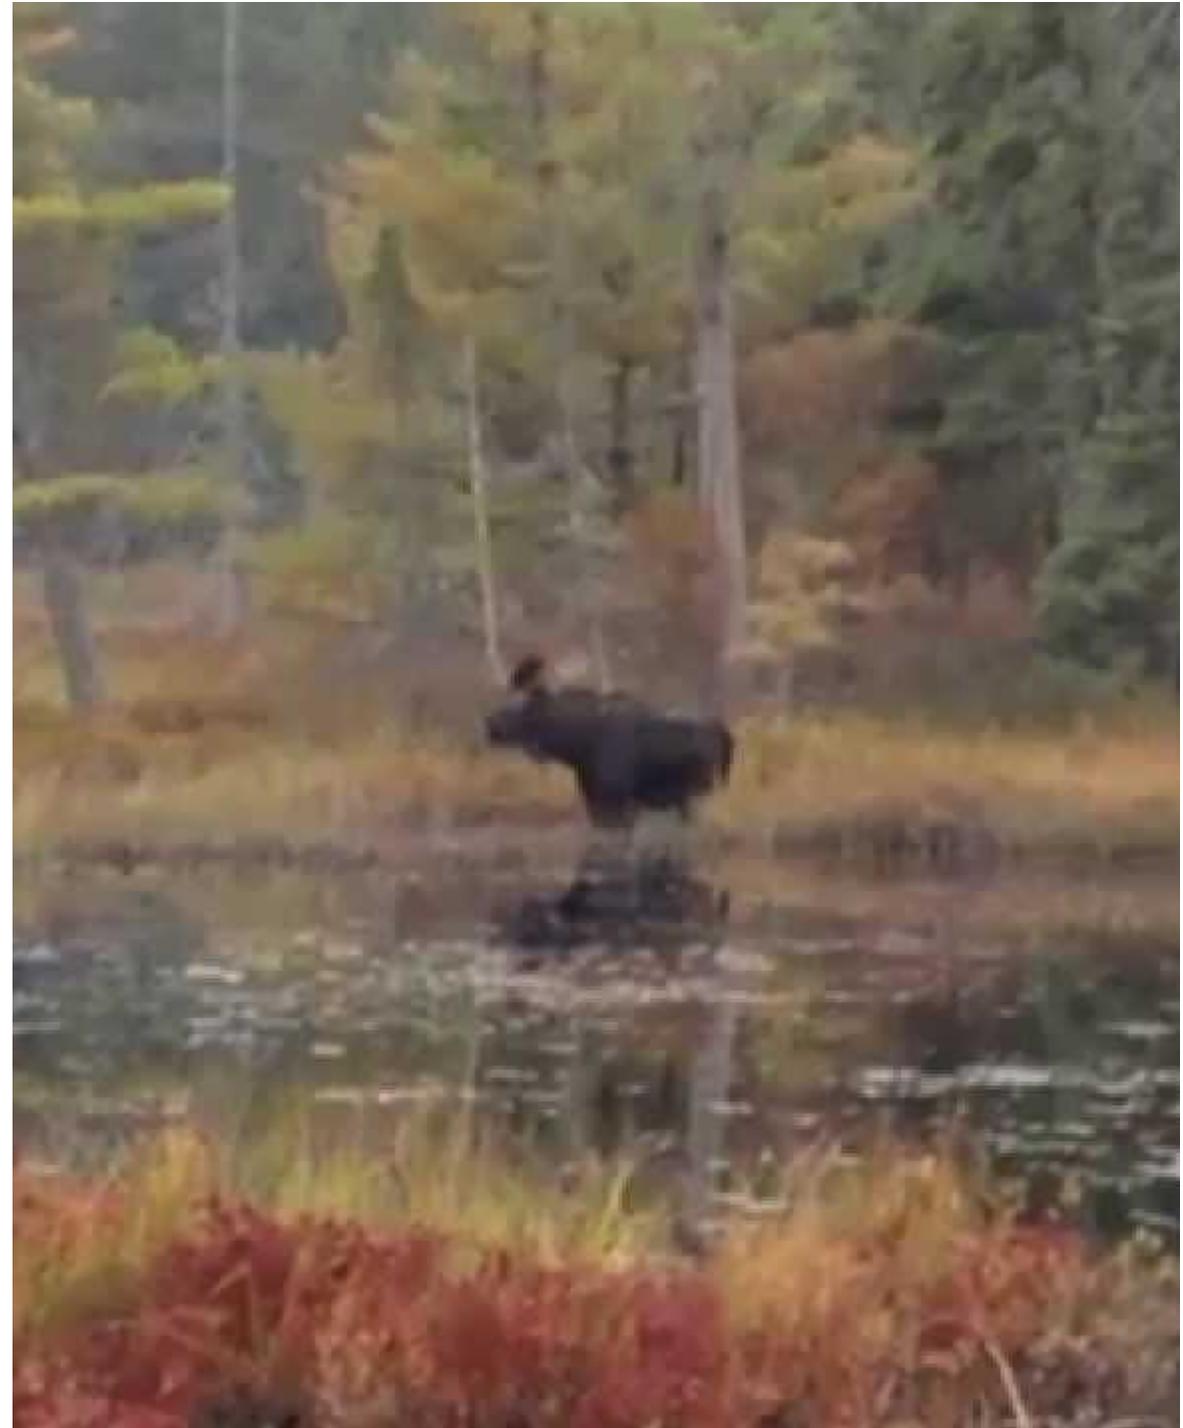

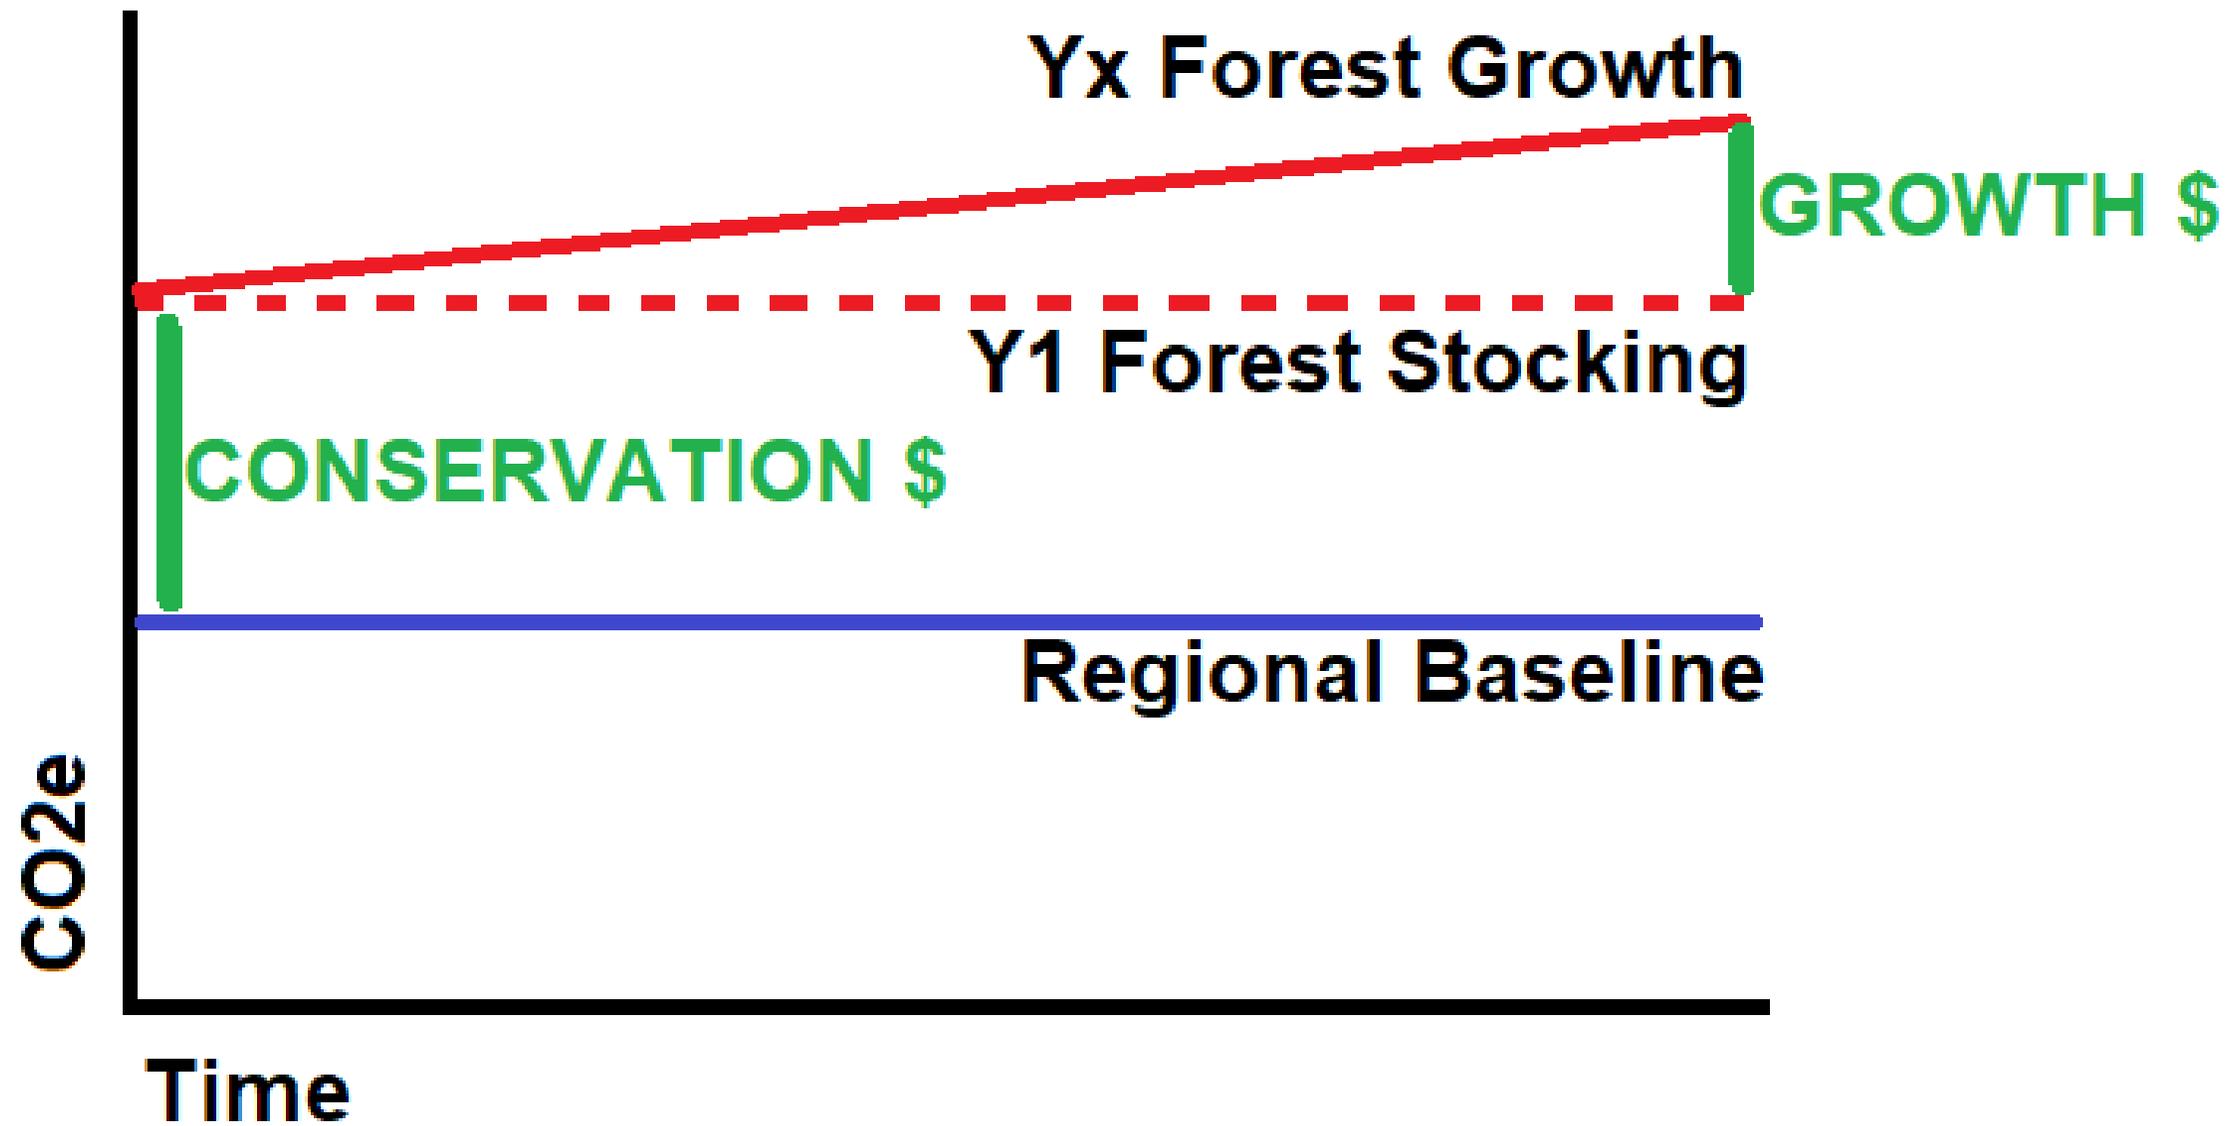

**We got the ball rolling in 2017.**

**The ball is still (slowly) rolling.**

**We want to unlock  
monetary value,  
and generate long-  
term eco-benefits.**

**Maintain existing  
stocking, and  
potentially reduce  
harvesting by ~10%.**

**Emissions from  
our operations  
can be reduced  
with new science.**

**Carbon offset projects require real sacrifices in exchange for credits/cash.**

**We are playing  
the long game.**

**There may be  
progress in 2021.**
